

Sheet Music Rose

Crafting instructions created by
Stephanie Coil
Programming Specialist
Way Public Library
Perryburg, Ohio

Supplies included:

Sheet music pages (2)
Templates on cardstock
Gold wire (10 inches)
Ribbon pieces (2)
Toothpick

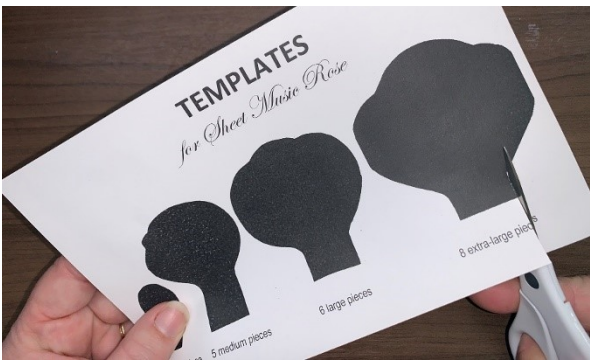

Additional supplies needed:

Hot glue gun & glue

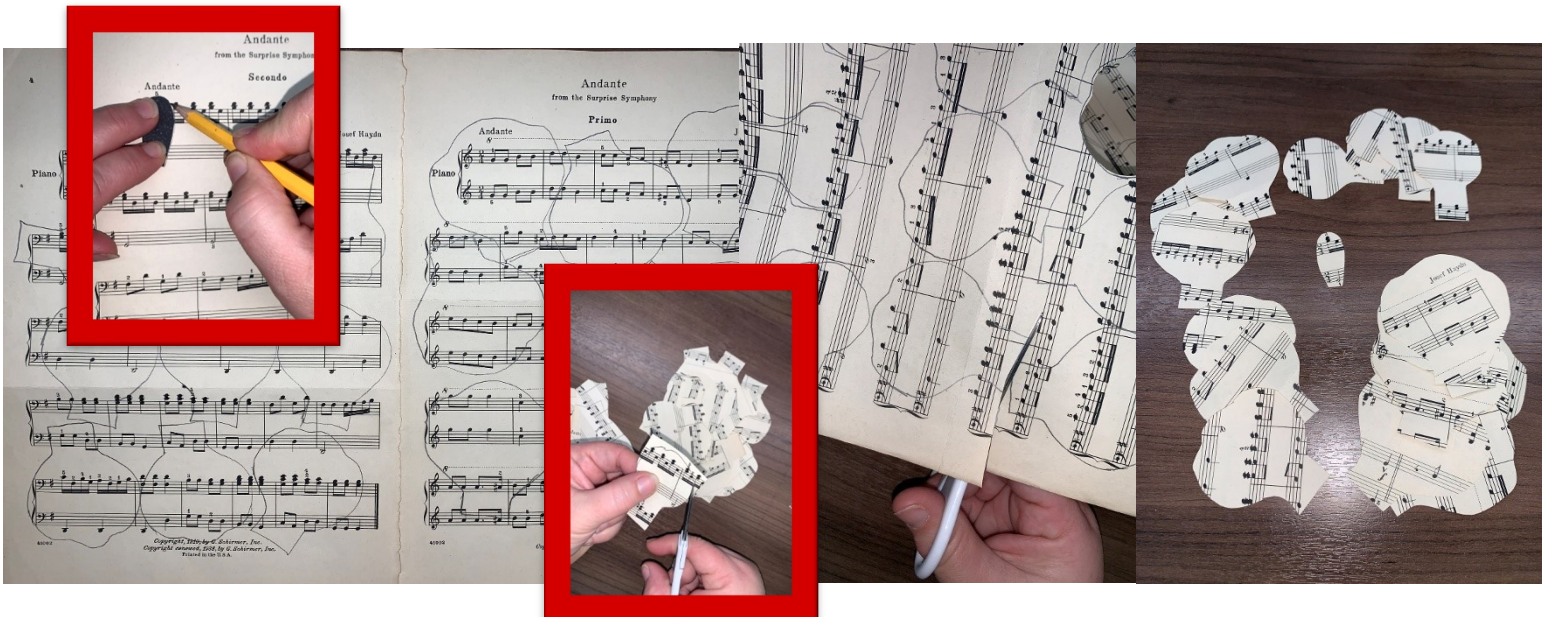

Step 1

Cut template pieces out.

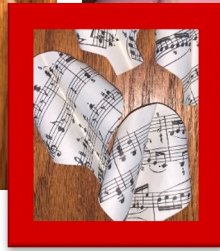

Step 2

Trace around the templates onto the sheet music. Trace 1 small piece, 5 medium pieces, 6 large pieces, and 8 extra-large pieces. Cut them out.

Step 3

Fold all the petal pieces in half. Take each folded petal and roll it around the toothpick on each side of the fold.

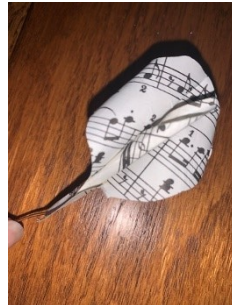

Step 4

Roll the small piece around the gold wire and hot glue in place. This is the center of the rose.

Step 5

Hot glue the curled petals to the rose stem one at a time starting with the medium pieces alternating sides to space petals out evenly.

Step 6

Continue to attach the large curled petals and then the extra-large petals until all are attached to the rose stem.

Step 7

Hot glue the pieces of the ribbon at the base of the stem on the underside of the rose to give it a finished look.
