

Wine Cork Ornaments

Supplies included:

For Angel

- 2 Wine corks (one will be cut using utility knife)
- White ribbon (9 inches)
- Twine (2 pieces 12 inches each)

For Reindeer

- 4 Wine corks (3 will be cut)
- Twine (12 inches)
- 2 Pipe Cleaner (2 pieces, 6 inches each)
- 2 Black beads for eyes
- 1 Small red pompom for nose

For Mouse

- 1 Champagne cork
- 1 Wine corks (will be cut)
- Twine (12 inches)
- Wire for legs, arms & tail (12 inches)
- Ribbon for scarf (6 inches)
- 3 Black beads for eyes & nose

Additional supplies needed:

For All Ornaments

- Scissors
- Utility knife
- Hot glue gun & hot glue sticks

For Angel

- Ultra fine point Sharpie
- White paint
- Paint brush

For Reindeer

- Twigs about 2 1/2 inches long

Cork Angel Ornament

Supply List

- (1) full cork
- (1) $\frac{1}{3}$ cork slice
- White Ribbon (9 inches)
- Twine for bow and hanging loop
(2 pieces, 12 inches each)
- Ultra fine point Sharpie
- White paint
- Paint brush
- Hot glue gun & glue
- Scissors

Step One: Paint cork slice on all sides and allow it to dry.

Step Two: Once dry, use Sharpie to draw a face on one flat side of cork slice. Then use hot glue gun to attach slice to one end of full cork, creating angel's head and body.

Step Three: Lay ribbon flat and cross ends over each other overlapping at middle. You should see two folds and two end pieces sticking out. Dab a spot of glue onto center of ribbon and press one end down securing a loop into place. Dab another spot of glue on top of what you just did and secure the other end. Now you have angel's wings! Trim off any excess ribbon.

Step Four: Using twine piece, tie a bow around angel's neck. Cut off any extra twine. Next, take another piece of twine and tie a knot onto one end, creating a loop to hang the angel ornament.

Step Five: On back side of angel, opposite the face, glue knot onto top portion of body. Next, use angel's wings to cover knot by gluing them on top. Allow glue to dry, then enjoy!

Makes an adorable decoration on or off the tree!

Also a lovely addition if gifting a bottle of wine for the holidays!

Happy crafting!

Cork Reindeer Ornament

Supply List:

- (1) full cork
- (1) cork quartered
(first cut lengthwise, then by width)
- (1) cork cut $\frac{3}{4}$ and $\frac{1}{4}$
- (1) $\frac{1}{8}$ cork slice
- Twigs (2.5 inches)
- Twine (12 inches)
- Garland or ribbon
(2 pieces, 6 inches each)
- (2) black beads
- (1) small red pompom
- Utility knife
- Scissors
- Hot glue gun & glue

Step One: Attach (4) quartered cork pieces to full cork with hot glue as legs. You can prop them up together to get an idea of where to place glue. Once attached and dry, flip body and reinforce legs by adding a layer of glue to underside where the legs meet the body.

Step Two: Using $\frac{3}{4}$ and $\frac{1}{4}$ cork pieces, build head. Select smaller piece and lay it flat on one end of the full cork for neck. After that is glued into place, glue $\frac{3}{4}$ piece on top for head. This piece should overhang neck away from body.

Step Three: Let's make the tail! Grab $\frac{1}{8}$ cork slice and utility knife. Carefully cut round in half. Set one half aside. Take half and glue to opposite end of cork from head for tail. It should extend above body.

Step Four: Using cork slice half set aside, cut it in half one more time. Ears! Glue them to top of head.

Step Five: Time for antlers. Take twig and break it into two pieces similar in length. Glue each piece to end of head, sticking up beyond ears.

Step Six: Take strip of twine and tie ends together to make a loop. Glue knot on top of where antlers are attached to head. You can attach loop other places but it may affect the balance of the ornament while hanging.

Step Seven: Finishing touches! Glue two black beads on as eyes, and red pompom as a nose. Accessorize reindeer with a garland wreath around neck, or ribbon as a scarf. This is a fun way to personalize to match your home, or as a gift. **Happy crafting!**

Cork Mouse Ornament

Supply List:

- (1) champagne cork
- (2) $\frac{1}{5}$ cork slices
- Wire (12 inches)
- Twine (12 inches)
- Ribbon (6 inches)
- (3) black beads
- Utility knife
- Scissors
- Hot glue gun & glue

Step One: We'll begin by cutting wire for tail, arms and legs. First cut a 5" long piece for tail. Using remaining length of wire, cut it into four equal pieces for arms and legs. Take four smaller pieces and curl one end to represent hands/feet.

Step Two: Using underside of cork, gently push tail wire into center. To make ornament more durable, I recommend removing wire, dabbing some hot glue into hole, then reinserting wire. We'll do same for two leg pieces, inserting straight ends near tail. Now, manipulate tail and legs to help mouse stand up. Once he's standing, curl end of tail for extra cuteness.

Step Three: We'll use same technique to attach arms. Use glue to reinforce hold. Insert them just below "neck" on both sides of cork.

Step Four: Cute little cork ears! Grab two $\frac{1}{5}$ slices and utility knife. This takes some experimenting. You'll need to cut some notches out to glue onto head. Start with a small notch, you can always cut more out. Once you've found a good fit, glue onto head.

Step Five: Let's add hanger next. Take twine and make a loop by knotting ends together. Glue knot to back of neck. Dab some extra glue to attach hanger up back of head to hold it more upright while hanging.

Step Six: Almost done! Scarf time! Take ribbon and wrap it around neck, allowing it to overlap in front. Dab some glue in a couple spots around neck to hold it tight and where scarf crosses in front. Depending on ribbon, you can cut some fringe into ends for flare.

Step Seven: Glue black beads on for eyes and nose. Cutest holiday mouse you've ever seen!
