

Simple Sentiment

Supplies

Wood block with vinyl decal attached
Toothpick

All items above are included in the kit.

Other items needed

Paint, color of your choice
Plastic cup or plate for paint
Foam paint brush
Wood sealer (optional)

Step 1

Gently rub finger over the vinyl decal on the wood to make sure it is adhered to the wood block.

Step 2

Paint the wood block on all sides with a thin coat of paint the color of your choice. This includes painting over the vinyl decal. **Do not use wood stain or spray paint.** By applying a thin coat of paint, the woodgrain is still visible on the wood block. Let the paint dry. Proceed to **Step 3**. If you don't want the woodgrain visible, add another coat of paint once the first coat is dry. Allow the second coat of paint to dry before proceeding to **Step 3**.

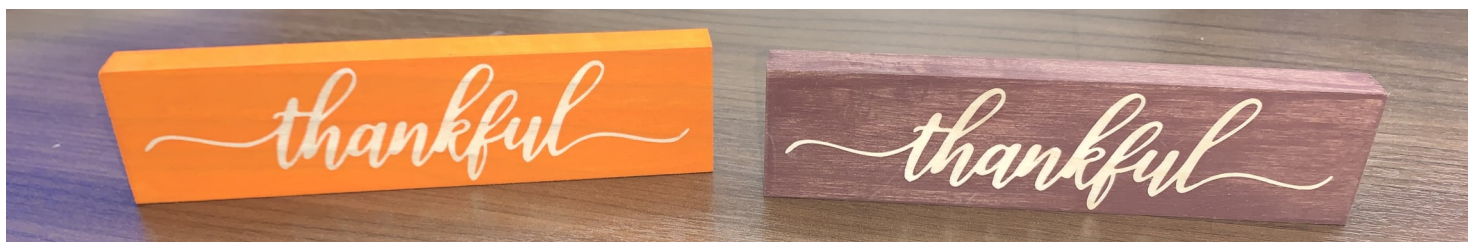

Step 3

Once the paint is dry, gently use the toothpick and your fingers to remove the vinyl decal from the wood block.

Step 4 (Optional)

Coat with a wood sealer.
